

## Interaction with Japanese and Australian Pharmaceutical and Medical Devices industry

**28<sup>th</sup> July 2021**

**10:30 AM-11:30 AM IST**

COVID-19 has highlighted vulnerabilities across global supply chains. In this regard, high-level consultations between Australia, India, and Japan have noted the importance of strengthening current supply chains, and the imperative of developing solid continuity and risk management plans to avoid future disruptions. Hence, the Supply Chain Resilience Initiative (SCRI) was launched with the following goals:

- i. Enhancing supply chain resilience in the Indo-pacific region through supporting trade and investment diversification
- ii. Attracting FDI in the region and strengthen mutual cooperation
- iii. Promote, expand and diversify trade and investment

As part of this initiative, the Department of Pharmaceuticals proposes to invite Japanese and Australian Pharmaceutical & Medical Device companies and industry chambers for a **“Discussion on investment and trade opportunities in the Indo-pacific region across the Pharmaceutical and Medical Device Sector” on Wednesday, July 28<sup>th</sup>, 2021.**
