

# Decarbonization with Industrial Heat Pumps & Boilers in India

Learn about the latest advancements in industrial energy efficiency, Japan's efforts in achieving carbon neutrality, and create new connections with industry professionals from Japan

03.10.2024

10:00 – 12:00 IST

Online (Zoom)

## OUR SPEAKERS

- Alliance for an Energy Efficient Economy (AEEE)
- Aspiration Energy
- Central Research Institute of Electric Power Industry (CRIEPI)

**METI**

*Ministry of Economy, Trade and Industry*

Organised by:

# AGENDA

Time	Item
10:00 – 10:20	Opening Remarks
	Introduction by NRI India
10:20 – 10:40	Necessity & Challenges of Decarbonization in India
10:40 – 11:10	Introduction of Heat Pumps
11:10 – 11:30	Energy-saving solution in Industries: Benefits and Case Studies
11:30 – 12:00	Q&A Session
	Closing Remarks

## WHAT TO EXPECT AT THIS SEMINAR

- **Learn** about the cutting-edge heat pump technologies and how they can be integrated into your operations to reduce carbon emissions and improve energy efficiency.
- **Network** with industry leaders and like-minded professionals committed to sustainability and develop actionable strategies to accelerate energy efficiency efforts.
- **Discover** the benefits of adopting these technologies, including energy savings, cost reduction, and environmental impact through in-depth case studies.
